To Whom It May Concern,

I want to recommend to you Mark and Suzan Mason, founders of "Life on the Verge" ministries. They recently ministered to the inmates of Indian Creek Correctional Center and were amazing! The message they shared blessed all faiths, and even those who claim no faith! Approximately 100 inmates attended the concert, and the most common response was 'when can they come back again?'

Mark and Suzan are very professional with much experience in prison ministry. Their team is extremely talented, and the ministry is very well organized. All the equipment they brought into the institution was listed in a detailed manner, making their check in and check out process very efficient.

The passion of their ministry to bring healing to the men who are incarcerated was evident throughout their visit. The inmates are excitedly awaiting their next visit! Please feel free to contact me if you have any questions about our experience with "Life on the Verge."

Sincerely,
Chaplain Rev. Donna B. Smith
